

WHAT CAN I DO FOR THE UNION?

We know that the real power of our union to achieve its objective depend on our being educated and active members. We share basic duties and obligations as union members. These include:

- Attending and contributing to union meetings and functions
- Staying informed on union issues and taking action on these issues when asked
- Participating in union activities to influence education priorities and policies, and workplace issues: attending school board meetings, meeting with legislators, being politically engaged
- Helping to build an effective union at the school level: be a building representative or assist the building representative in implementing a member to member framework
- Participating in union building training programs to become a more effective union member
- Participating in the democratic processes of the union
- Taking on positions of union leadership
